Identical letters dated 11 February 2003 from the Permanent Representative of Iraq to the United Nations addressed to the Secretary-General and to the President of the Security Council

On instructions from my Government, I have the honour to transmit to you herewith the daily report on the activities carried out by the inspection teams of the United Nations Monitoring, Verification and Inspection Commission (UNMOVIC) and the International Atomic Energy Agency (IAEA) in Iraq on 11 February 2003.

I should be grateful if you would have this letter and its annex distributed as a document of the Security Council.

(*Signed*) Mohammed A. **Aldouri**
Permanent Representative

03-24664 (E) 250203 260203

Annex to the identical letters dated 11 February 2003 from the Permanent Representative of Iraq to the United Nations addressed to the Secretary-General and to the President of the Security Council

Activities of the UNMOVIC and IAEA inspection teams in Iraq

Inspection activities carried out on 11 February 2003

I. IAEA inspection team

1. A first group of five inspectors left the Canal Hotel at 9.45 a.m. for the site of the Iraqi Atomic Energy Organization at Tuwaythah. The group inspected the "Italian project" and the waste ponds, which it photographed, and also the destroyed "French project" (Tamouz reactor). Using portable equipment, it carried out radiation surveys of the inspected sites in order to detect possible radioactive activities. After completing its inspection, which lasted one and a half hours, the group returned to the Canal Hotel.

2. A second group of two inspectors left the Canal Hotel at 9.45 a.m. for the Jadiriyah scientific complex and the site of the 17 Nisan Company in order to recover air sampling equipment and bring it back to the Canal Hotel. After completing its mission, which lasted one and a half hours, the group returned to the Canal Hotel.

3. A third group of three inspectors left the Canal Hotel at 9.45 a.m. Using portable equipment, it carried out radiation surveys between the Bu'Aytha area and the Yusufiyah area, where there are farms on the river bank opposite the premises of the Iraqi Atomic Energy Organization, as well as military units, in order to detect possible radioactive activities. After completing its mission, which lasted three hours, the group returned to the Canal Hotel.

II. UNMOVIC inspection team (chemical)

The team, consisting of 10 inspectors, left the Canal Hotel at 9.45 a.m. for the Muthanna site of the Tariq State Company (an MIC affiliate) located 50 kilometres north of Baghdad. The team prepared the place assigned for the destruction of shells and took the necessary technical steps for the destruction operation. After completing its mission, which lasted two hours, the team returned to the Canal Hotel.
